

Facilities Master Plan

During the 2011-2012 school year, our architects at Ratcliff led a school community master planning session. This meeting gave students, parents, faculty and staff an opportunity to contribute ideas that would influence the physical interior and exterior development of the Emeryville campus. Ideas were gathered and our architects transformed this information into a 2D drawing and a lengthy written document that we now have as a valuable resource moving forward.

Phase I - Structural upgrade, phased renovation of a portion of the existing building's first floor, and phased site improvements including the Adventure Play Area (Completed 2012)

Before:

After:

Phase II - Interior renovation of existing building's entire first floor and half of second floor (Completion Summer 2014).

Before:

After:

Phase III - Interior renovation of remaining second floor spaces (Estimated for 2016)

Phase IV - Construction of a new two-story east building and site improvements (TBD)

Phase V - Construction of a new two-story south building and site improvements (TBD)

Phase VI - Construction of a new multi-use athletics building and site improvements (TBD)
