

# Enrichment Classes

EBI offers a variety of enrichment classes in Spanish and English during the school year that provide children at EBI with the opportunity to engage in structured choice activities that encourage them to explore their own creativity and interests. These enrichment classes vary from session to session and expose children to a variety of experiences that help them to discover new talents and skills.

Enrichment class prices may vary whether a child is enrolled in the Unlimited 5-Day or Unlimited 3-Day EBI Aventura option.
